Mr. Colin Monahan
Business Administrator

August 10, 2022

Dear Passaic Valley School Community,

If you have driven by the campus lately you probably noticed many new changes. We recently completed some major projects and have several more on the horizon. We are building positive momentum as we continue to see a large influx of transfer students and an increase in enrollment for the freshmen class.

I can confidently say that there is no better time to be a Hornet than now!

★ Our academic programs prepare students for the most prestigious universities. We have graduates attending Harvard, Cornell, Brown, Johns Hopkins, Georgetown, Fordham, RPI, Stevens Institute of Technology, George Washington, NYU, and Vassar. Put in the work and reap the benefits!

★ Auditorium renovations will begin soon which includes new seating, carpeting, tiling, lighting, and sound. We are excited to provide our award-winning Fine and Performing Arts program a beautiful theater that they will be proud to call home.

★ We have been expanding our Dual Enrollment programs which allows students to earn college credits while attending class at PV. Have your child speak to their counselor to learn more about these opportunities.

★ Our Energy Improvement project is almost complete. It includes $2.1 million in lighting and ventilation upgrades. This project is being funded by the federal government.

★ Our new electronic sign marquee has been installed. We look forward to highlighting student and staff achievements.

★ The installation of our new turf field is complete and track renovations will be finished shortly.

★ We are 1:1 with Chromebooks! Distribution begins later this month.

None of this would be possible without the support of our students, staff, and families. We will continue to make you proud to be part of the green and white community.

Educationally yours,

Brack Healy, Ed.D.
Superintendent
